Referent - A mentoring initiative for MSCA early career researchers

Referent

A MENTORING INITIATIVE FOR MSCA EARLY CAREER RESEARCHERS

LOOKING FOR MENTAL HEALTH PEER SUPPORT?

Doing a PhD is a demanding undertaking, and doing it in a country that is not yours, in another academic culture, can be complicated. Many MCAA fellows suffer from this situation in isolation.

However, being supported by individuals who have had the same problem could help you to feel better. MCAA is setting up the REFERENT initiative in order to provide young researchers experiencing such issues as distress, depression, harassment, or bullying, the possibility to talk with an experienced MCAA fellow who has faced similar issues.

Training for ECRs

Target sustainable employment of researchers

- Resilience
- Boundaryless careers

Improve researchers wellbeing and emotional skills

SciLink Foundation <u>https://scilink.eu/</u>

Open, community based, Al-driven learning platform

Network and scale

Researcher Mental Health Observatory (ReMO)

- Developing a conceptual framework and tools that are tailored to the academic context
- Taking a multilevel perspective on problems and problem generating mechanisms, but also on positive organizational behavior in support of meaningful work and wellbeing
- Using a diversity of methods with short feedback loops between theory and practice

The European Council of Doctoral Candidates and Junior Researchers

B LEIBNIZ INFORMATION CENTRE FOR SCIENCE AND TECHNOLOGY UNIVERSITY LIBRARY

Innovation Project I

Enhancing the professionalization of researchers through open science, communication and mental health skills training

- Developing training
- Delivering a summer school series (2020-2022)
- Measuring training effectiveness

SPACE
