

Eurodoc position vacancy

(ref. Eurodoc-2023-02)

We are looking for a project team member to be hired at the earliest convenience. The new position is part of the Open Universal Science (OPUS) project <https://opusproject.eu/> funded by the European Commission under project no. 101058471.

Context and background information

The Open and Universal Science (OPUS) project develops measures to reform the assessment of research and researchers at Research Performing Organisations (RPOs) and Research Funding Organisations (RFOs) to incentivise and reward researchers to take up Open Science practices in a wide sense of the term.

The OPUS Objectives are:

1. Conduct a comprehensive state-of-the-art on existing literature and initiatives for Open Science
2. Develop a comprehensive set of tools to implement Open Science at RPOs and RFOs
3. Develop realistic indicators and metrics to monitor and drive Open Science at RPOs and RFOs
4. Test the interventions and indicators and metrics via action plans in pilots at RPOs and RFOs
5. Utilise a stakeholder-driven feedback loop to develop, monitor, refine, and validate actions
6. Synthesise outcomes into policy briefs and a revised OS-CAM2 for research(er) assessment

Eurodoc particularly collaborates in the state of the art on Open Science incentives, metrics, and indicators, as well as in drafting and disseminating policy recommendations.

Eurodoc position vacancy

Responsibilities

The new team member will be responsible for carrying out the OPUS project activities related to Eurodoc, which includes:

- Communicating project activities to Eurodoc stakeholders;
- Contribution to policy analyses, assessing the state-of-the-art, and synthesizing outcomes into policy briefs;
- Content preparation for social media and other communication activities;
- Monitoring and evaluating project activities;
- Project reporting (technical and administrative);
- Contribution to the dissemination and exploitation of project results;
- Participating in online project meetings and selected presence consortium meetings;
- Co-creation of follow-up projects, grant submissions and activities.

Profile

The following profile is expected from the candidate:

- Good communication and networking skills;
- Good Understanding of the Research Ecosystem, Open Science practices in all their variety, Research assessment and reward systems;
- Experience in science policy activities;
- Experience with dissemination activities;
- Experience in project evaluation (survey design, delivery, and analysis);
- The readiness to join an interdisciplinary team to work on developing new initiatives in doctoral support and education.

Offer

The following is offered with the announced position:

- Contractual period from July 2023 until August 2025;
- Internal service contract with a daily rate of 300 EUR (gross) including VAT (if applicable) with approx. 100 days for the project duration, or alternatively
- Regular employment contract under Belgian law at equivalent financial conditions (gross employer costs) as above.
- Flexible working hours (depending on project activities);
- Being part of a pan-European association and an interdisciplinary research team focussing on researcher career frameworks and sustainable employment.
